

KRISHNA MATHUR

AI Product & Strategy Leader | Business Analyst | Data Analyst |

krishnamathur008@gmail.com | [+971 501946921](tel:+971501946921) | [LinkedIn](#) | [GitHub](#) |

Dubai, UAE | Jaipur, Rajasthan, India

EXECUTIVE PROFILE

Dubai-based AI and business professional combining a B.Tech in Computer Science Engineering (AI & ML) with current MAIB study at SP Jain School of Global Management, Dubai. Built Python/NLP prototypes, designed analytics-led decision systems and led cohort-level stakeholder communication as Class Representative. Recognized with a USD 9,000 merit scholarship, Student Excellence Award and Brilliant Student Award. Targeting UAE roles across AI product, AI consulting, business analysis, data analysis and technology strategy, with a long-term path toward CTO / Chief AI Officer leadership.

EXECUTIVE VALUE PROPOSITION

AI Product Thinking: Translate business problems into AI workflows, prototypes and usable interfaces.	Consulting Mindset: Structure ambiguous problems, build evidence-based recommendations and present clearly.
Technical Execution: Work across Python, SQL, NLP, ML, FastAPI, Streamlit, Docker and Git-based delivery.	Leadership & Communication: Represent stakeholders professionally and coordinate across students, faculty and administration.

PROFESSIONAL EXPERIENCE

AI/ML Intern | Intelliza Solutions Pvt. Ltd.

Mumbai, India
Feb 2025 - Jun 2025

- Built SmartLoanBot, a Python-based loan-advisory prototype using NLTK/spaCy and Tkinter to convert user questions into guided advisory workflows.
- Integrated location-based services for nearby branch/lender discovery and connected technical logic to a clear desktop user experience.
- Supported internal digital task-tracking improvement by reconciling status information, clarifying ownership and reducing duplicated effort during review cycles.
- Prepared demo-ready flows and documentation that explained AI/NLP functionality in business terms for non-technical stakeholders.

LEADERSHIP EXPERIENCE

Class Representative | SP Jain School of Global Management -

Dubai, UAE
Oct 2025 - Present

MAIB Cohort

- Act as a professional bridge between students, faculty and administration for schedules, attendance, assessments and academic concerns.
- Coordinate communication for a global business-school cohort while maintaining a solution-oriented and responsible student-leadership approach.

SELECTED AI, ANALYTICS & STRATEGY PROJECTS

WaselX Express Last-Mile Delivery Optimization System |

UAE Network
2026

Academic Team Project

- Worked in a 3-person team to design a logistics optimization system on a 15-node, 24-road UAE delivery network.
- Implemented or documented 16 algorithms/data structures across shortest paths, MST, traversal, AVL/BST indexing, priority queues, sorting, searching and linked structures.
- Linked algorithmic outputs to routing, dispatch, lookup and demand-prediction decisions; contributed to technical reporting, visualization and executive recommendations.

Natural Language Processing & Language Analysis | NLP Notebook

Academic
2026

- Completed an 8-part NLP workflow covering POS tagging, context-free grammar, parse ambiguity, semantic interpretation, TF-IDF and latent semantic analysis using NLTK and scikit-learn.

ADDITIONAL HIGH-VALUE PROJECTS

CNN Flower Image Classification MVP Architecture | Deep Learning / Product Build Local MVP 2026

- Designed a practical AI application architecture using TensorFlow, FastAPI, Streamlit, Docker and SQLite for inference, user interaction and prediction-history tracking.

Consumer Persona, Value Proposition & STP | Marketing Management Team Project Dubai, UAE 2026

- Co-developed a UAE campus restaurant buyer persona, value proposition and STP analysis for a 2-member team presentation, turning price, speed, freshness, variety and comfort observations into actionable positioning.

EDUCATION

Master of Artificial Intelligence in Business (MAIB) | SP Jain School of Global Management Dubai, UAE 2025 - Present

- USD 9,000 merit scholarship recipient; Class Representative; coursework across AI, databases, NLP, deep learning, finance, marketing, decision analytics and business strategy.

B.Tech - Computer Science Engineering (Artificial Intelligence & Machine Learning) | Manipal University Jaipur Jaipur, India 2021 - 2025

- Recipient of Student Excellence Award and Brilliant Student Award for highest academic performance in B.Tech CSE (AI & ML).

TECHNICAL & BUSINESS SKILLS

AI / ML	Machine Learning, Deep Learning, NLP, Generative AI concepts, TensorFlow, scikit-learn, NLTK, spaCy
Data / Backend	Python, SQL, MySQL, SQLite, FastAPI, Streamlit, Docker, Git, AWS exposure
Business	AI product thinking, business analysis, consulting communication, stakeholder management, market research, finance fundamentals, marketing and optimization
Tools / Delivery	Jupyter/Colab, VS Code, GitHub, dashboard prototyping, documentation, executive presentation

AWARDS, SCHOLARSHIP & PROFESSIONAL DEVELOPMENT

- USD 9,000 Merit Scholarship - SP Jain School of Global Management.
- Student Excellence Award - Manipal University Jaipur.
- Brilliant Student Award - highest academic performance in B.Tech CSE (AI & ML).
- Professional-development priorities: AWS Cloud Practitioner, Power BI/Tableau and GenAI Developer pathways. These are listed as current development priorities, not completed certifications.
